It is a self-evident fact that the tide is turning

against "cheap" (inferior) tailoring. Good tailoring is like a gold dollar—always worth its price. Time was when the prices for good tail-

nium in tailoring by simply asking a living profit over and above the actual cost of the materials and

skilled labor. Is it any wonder that even with more than fifty employes on the roll we cannot meet the demand. However, we have lines out

for a half dozen of Gotham's most skilled tailors,

and will turn the work out 'just so" or lose money.

MRS. HARRISON'S CONDITION. She is Very Weak, but Was Regarded Today as No Worse.

Mrs. Harrison was considered by her physician this morning to be no worse than she has been for the past three or four days, and throughout the day there has been no especial change one way or the other. She is very weak and was all day yesterday, but Sunday passed without any incidents likely to increase the sad feelings of the household. The President went periods of the day.

Dr. Gardner at his evening visit said Mrs. Harrison had spent a fairly comfortable day, and if anything had been a little brighter than holds that the fourteenth amendment did not some time during the day.

It is understood that he will have a conferusual, not being so drowsy as on the two days preceding. This opinion was substantially repeated this morning. This sleepiness, from which she has to be aroused to take her nourishment, is still the leading feature in her case. She is, however, taking her usual quantity of nourishment. nourishment.
Mr. Russell Harrison said at noon to a STAR

reporter that his mother had spent a somewhat more comfortable night, but that she was very Mrs. F. S. Newcomer of Indianapolis, an aunt of the President, arrived this morning and is a guest at the White House.

Gen. Wheaton Wants Gymnasiums for Troop

and Says the Garza Trouble is Over. Gen. Wheaton, commanding the departmen

of Texas, in his annual report to the Secretary of War says that the Garza troubles may be considered ended, though the frequent reports of the assembling of isolated small bands of revolutionists with a view to violation of our seutrality laws by invading Mexican territory has required the greatest activity of troops on the Rio Grande border. This service has been faithfully performed

under very trying circumstances during the eason of greatest heat, severely taxing the energies of troops and animals. The operations were conducted in desolate, barren regions, very sparsely, if at all, inhabited, where supolies of wood and water were scarce and where the necessary food for animals was almost imossible to procure.

Gen. Wheaton says:
"To prevent violators of neutrality laws from invading our neighbor, Mexico, the garrisons of our Rio Grande posts must be constantly on the alert to carry out the instructions of the major general commanding, and I consider it important that some additions be made to the strength of these frontier posts, which has been inadequate since the force in this department was reduced in June, 1888, by the transfer elsewhere of the eighth cavalry. This regiment has never been replaced; when it is we shall be in better condition to satisfactorily protect an immense frontier of nearly 1.500 protect an immense frontier of nearly 1,500 miles now insufficiently guarded." CONDITION OF THE ARMY. Referring to the condition of the army, he

says: "Our army is conceded to be of good mawell armed, but the proper development of the physical condition will never approach that at-tained in other armies until every post has its gymnastum and physical training ground.

"I can conceive of no more important suggestion to the major general commanding than to ask his recommendation that these be ordered and constructed at an early date. Gymnastic training would vary the tedious monotony of drills and exercises, that when once learned by the recruit cannot always retain his interest. If one-half the time now devoted to company drill could be given to

devoted to company drill could be given to gymnastic instruction, our soldiers would not only be better prepared physically for service in the field, but the discontent, a frequent cause of desertion, that more or less pervades our ranks, could be greatly lessened if not ultimately "England and France have followed Germany in the matter of physical training of troops and in striving for a perfection earnestly desired by our officers and soldiers we should not in this

was transmitted to me by Cardinal Gibof this great republic at the prospect of receivsent by the holy see to the exposition which is to be held pext year at Chicago in honor of the immortal discoverer of America.
The august pontiff felt certain that the United
States government would spare no pains to preserve the precious objects that are to be intrusted to it from any mishap, and he returns his thanks for the kind offer that has been made his thanks for the kind offer that has been made for their transportation and for the free passage of the person who is to have charge of them. In the meantime his holiness, who has so many reasons to entertain special regard for the United States, on account of the liberty which is enjoyed in the said states by the Catholic Church and who justly admires the enterprise and progress of that country, has decided to be represented at the public demonstrations which are to be held there in honor of the Genoese hero on the fourth centenary of his memorable discovery by a person who is no less distinguished by his personal qualities than by his grade in by his personal qualities than by his grade in the ecclesiastical hierarchy. This person is Monsignor Francesco Satolli, archbishop of Lepanto, a prelate who is highly to be esteemed Lepanto, a prelate who is highly to be esteemed on account of his virtues as for his profound scholarship, of which he has given many evidences in his writings.

His holiness does not doubt that this decision of his will be received with pleasure by the government and feels assured that your excellency will welcome the prelate with your accustomed courters.

Revised Statutes. The judicial power of the Eurited Statutes and this is a case so arising for the reason just stated.

We concur with the supreme court of Michigan that so far as act No. 50 conflicts with the act of Congress of February 3, 1887, in the gan that so far as act No. 50 conflicts with the act of Congress of February 3, 1887, in the particulars pointed out and in respect of which Congress possesses the power to legislate it is in inoperative only to that extent, but that the act is not for that reason void and may stand as modified.

We also hold with that court that in view of the language of the second clause of the first section of article II of the Constitution, and the contemporaneous and subsequent construction of article II of the Constitution, and the contemporaneous and subsequent construction of article II of the Constitution, and the contemporaneous and subsequent construction of the language in practice, this act cannot now be held invalid for want of power in the state legislature to provide for the appointment of electors of President and Vice President of the United States as therein prescribed. And we are clear that that clause of the first section of article II has not been changed by the 14th amendment to the constitution and this act is not obnoxious to objection on the ground of conflict with that amendment.

We make this announcement at this time because of an exigency suggested as apparently requiring immediate action under the state in the clause of the first section of article II has not been changed by the 14th amendment to the constitution and this set is not obnoxious to objection on the ground of conflict with that an amendment.

We make this announcement at this time because of an exigency suggested as apparently requiring immediate action under the state is not obnoxious to objection on the grounds of this decision. The interest of the supreme court of Michigan is affirmed and the mandate will issue at once.

The decision today obliterates the last has a firmed and the part of the electoral vote of Michigan to the democrats. The opinion was unanimous. THE EFFECT OF THE DECISION.

The decision of the Supreme Court in the would sustain the law. The consequence of the decision will be that Mr. Cleveland will get a share of the electoral votes of the state of Michigan. When the votes of the state of Michigan. When the democrats got control of Michigan at the last tidal wave election they enacted the Miner law, which provided that all the presidential electors, except two at large, shall be selected by congressional districts, instead of all being elected at large. The object of the law was, of course, to enable the minority party to secure a minority represen-tation among the electors.

Michigan has fourteen electors. Twelve of

these will be chosen by the congressional dis-tricts, so that where the democrats elect Congressmen they will also get electors, though the state as a whole has a majority against them. They are conceded to be reasonably sure of three electors under this law, and they may get

> New York's Weather Prophet Coming. Prophet Elias Dunn, who, as a general thing, tells the New Yorkers what kind of weather they are going to have, is coming to this city for a two months' tour of duty at headquarters. This is the regular order of business for every observer in the weather bureau service. New Yorkers were afraid Mr. Dunn would be permanently retained as a forecaster in the big red building at 24th and M streets, but Superin-tendent Harrington told a STAR reporter that Mr. Dunn would be duly returned, right side up, when his two months' term expired. Increase of Brazil's Trade. According to the latest trade returns received at the bureau of the American republics the com-

serce of the republic of Brazil for the first six aths of the current year has amounted to \$37,900,000 gold in imports as against \$33,200,-000 last year, and \$66,200,000 gold in exports 000 last year, and \$66,200,000 gold in exports against \$63,100.000 in 1891. The customs duties were \$43,530,000 currency against \$23,940,000 in 1891. These figures show an increase of 14 per cent in imports, 7 per cent in exports and 81 per cent in customs revenue, which has continued to be high all through July and up to date. The increase of the commerce of Bahis Blanca is shown by the following statistics of custom house revenue from 1885 to 1891: 1885, \$10,400; 1886, \$96,200; 1887, \$87,600; 1888, \$78,600; 1889, \$69,500; 1890, \$124,400, and 1891, \$225,400. In the seven months of this year the revenue amounted to \$259,000. Bahis Blanca is fast becoming one of the most important ports of the republic. Ex-Minister Kasson's Retimate.

Ex-Minister Kasson is in Washington or private business. He said to a Star reports today that he was not taking an active part is politics, but that as a looker on his judgment

politics, but that as a looser on his Judgmens was that Mr. Harrison had a small percentage the best of Mr. Cleveland. He said he thought Mr. Harrison's chances were sufficiently better than Cleveland's to warrant a bet on Harrison.

FRIENDS OF DEMOCRACY AND CITIZENS who desire the election of the democratic candidates for the presidency and vice presidency of the republic.—We have entered on the last month of the campaign. Permit the understrued to remind you, each and all, that while many have generously responded in approved of the democratic cause, there are multitudes who undoubtedly desire its triumph and would hall such triumph as a boon to all classes of the people, but who have as yet rendered no aid toward its accomplishment. It is believed that a little reflection will convince all such persons that a presidential campaign cannot be carried on without involving a legitimate and heavy burden of expense and that it is only just that this burden should be borne, not by a single class, but by all the friends and well-wishers of our cause.

Contributions will be received by the treasurer. J. Harrison Johnson, at the rooms of the advisory committee. No. 1213 F st. a. w., second floor, or remitances may be made to him by mail, if preferred, addressed to Look Box 288.
